DEPARTMENT OF ENVIRONMENTAL QUALITY Environmental Assessment

Water Quality Division Water Protection Bureau

Name of Project: MDU Lewis & Clark Station

Type of Project: Individual permit to discharge from a 50 megawatt privately-owned, coal-fired steam electric generation facility.

Location of Project: 35023 Highway 23, Sidney, Montana 59270

City/Town: Sidney County: Richland

Description of Project:

This is a termination of the Montana Pollutant Discharge Elimination System (MPDES) permit for the MDU Lewis & Clark Station.

Agency Action and Applicable Regulations:

The proposed action of DEQ is to terminate the MPDES permit.

Montana Water Quality Act, MCA 75-5-101, et seq.

ARM Title 17, Chapter 30, Subchapter 2 - Water Quality Permit Application and Annual Fees.

ARM Title 17, Chapter 30, Subchapter 5 - Mixing Zones in Surface and Ground Water.

ARM Title 17, Chapter 30, Subchapter 6 - Surface Water Quality Standards.

ARM Title 17, Chapter 30, Subchapter 7 - Nondegradation of Water Quality.

ARM Title 17, Chapter 30, Subchapters 12 and 13 - MPDES Standards.

Summary of Issues:

MDU Lewis and Clark Station closed in 2021 and outfalls removed during the past year. DEQ intends to terminate the permit pursuant to ARM 17.30.1363(1)(d).

Affected Environment & Impacts of the Proposed Project:

Y = Impacts may occur (explain under Potential Impacts). Include frequency, duration (long or short term), magnitude, and context for any significant impacts identified. Reference other permit analyses when appropriate (ex: statement of basis). Address significant impacts related to substantive issues and concerns. Identify reasonable feasible mitigation measures (before and after) where significant impacts cannot be avoided and note any irreversible or irretrievable impacts. Include background information on affected environment if necessary to discussion.

N = Not present or No Impact will likely occur. *Use negative declarations where appropriate (wetlands, T&E, Cultural Resources).*

the project proposed in core, general or connectivity sage grouse habitat, as designated by the Sage Grouse Habitat Conservation Program (Program) at: https://sagegrouse.mt.gov/? If yes, did the applicant attach documentation from the Program showing compliance with Executive Order 12-2015 and the Program's recommendations? If so, attach the documentation to the EA and address the Program's recommendations in the permit. If project is in core, general or connectivity habitat and the applicant did not document consultation with the Program, refer the applicant to the Sage Grouse Habitat Conservation Program. 8. HISTORICAL AND ARCHAEOLOGICAL SITES: Are any	IMPACTS ON T	THE PHYSICAL ENVIRONMENT
I. GEOLOGY AND SOIL QUALITY, STABILITY AND MOISTURE: Are soils present which are fragile, crossive, susceptible to compaction, or unstable? Are there unusual or unstable geologic features? Are there special reclamation considerations? 2. WATER QUALITY, QUANTITY AND DISTRIBUTION: Are important surface or groundwater resources present? Is there potential for violation of ambient water quality standards, drinking water maximum contaminant levels, or degradation of water quality? 3. AIR QUALITY: Will pollutants or particulate be produced? Is the project influenced by air quality regulations or zones (Class I airshed)? 4. VEGETATION COVER, QUANTITY AND QUALITY: Will vegetative communities be significantly impacted? Are supy rare plants or cover types present? 5. TERRESTRIAL, AVIAN AND AQUATIC LIFE AND HABITATS: Is there substantial use of the area by important wildlife, birds or fish? 6. UNIQUE, ENDANGERED, FRAGILE OR LIMITED ENVIRONMENTAL RESOURCES: Are any federally listed threatened or endangered species or identified habitat present? Any wetlands? Species of special concern? 7. SAGE GROUSE EXECUTIVE ORDER: Is the project proposed in core, general or connectivity sage grouse habitat, as designated by the Sage Grouse Habitat Conservation Program (Program) at: https://sagegrouse.ml.gov/? AND ECONOMIC CIRCUMSTANCES:	[1.1] 1.12 o nuo etosso me perminen curruno.				
23(a). PRIVATE PROPERTY IMPACTS:	[N]				
Are we regulating the use of private property					
under a regulatory statute adopted pursuant					
to the police power of the state? (Property					
management, grants of financial assistance,					
and the exercise of the power of eminent					
domain are not within this category.) If not,					
no further analysis is required.					
23(b). PRIVATE PROPERTY IMPACTS:	[N]				
Is the agency proposing to deny the					
application or condition the approval in a					
way that restricts the use of the regulated					
person's private property? If not, no further					
analysis is required.					
23(c). PRIVATE PROPERTY IMPACTS:	[N/A]				
If the answer to 21(b) is affirmative, does the					
agency have legal discretion to impose or not					
impose the proposed restriction or discretion					
as to how the restriction will be imposed? If					
not, no further analysis is required. If so, the					
agency must determine if there are					
alternatives that would reduce, minimize or					
eliminate the restriction on the use of private					
property, and analyze such alternatives. The					
agency must disclose the potential costs of					
identified restrictions.					

- 24. Description of and Impacts of other Alternatives Considered: None.
- 25. Summary of Magnitude and Significance of Potential Impacts: None
- 26. Cumulative Effects: None.
- 27. Preferred Action Alternative and Rationale: The preferred action is to terminate MPDES permit # MT0000302. MDU has requested the permit be terminated..

Recommendation for Further Environmental Analysis:

I	Г 1	EIS	Γ.	More	Detailed	EA	ſΧ	l No	Further	Anal	vsis
ı	LJ	LID		111010	Detailed	L11	∡ ⊾	1 1 10	1 di dici	1 Milai	y DID

Rationale for Recommendation: An EIS is not required for the MPDES permit under the Montana Environmental Policy Act because the action to issue (renew) the permit lacks significant adverse effects to the human and physical environment.

28.	Public Involvement: A 30-day public comment period will be held.
